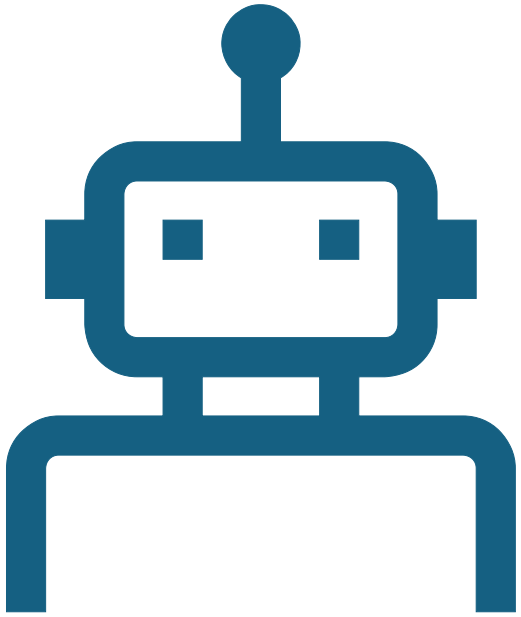
More Americans becoming afraid of artificial intelligence, poll finds

Fifty-seven percent of 1,004 registered voters who participated in the poll believe artificial intelligence is a threat to the human race.

Healthcare in the age of AI:

Ethical topics to consider:



Addressing ethical tensions: Where do we go next?

- Engage our patients to clarify their concerns about and comfort with AI applications
- Develop educational programs for healthcare providers adopting new forms of AI
- Establish mechanisms for assessing health outcomes associated with AI applications
- Promote a national dialogue on the larger societal trade-offs associated with applying AI in medicine
- Anticipate that AI may have its greatest impact on aspects of healthcare that we cannot predict, promote anticipatory ethics research

NEW HAMPSHIRE HOSPITAL ASSOCIATION
FOUNDATION FOR HEALTHY COMMUNITIES

ANNUAL MEETING

Oct. 20-22, 2024 | OMNI Mt. Washington Hotel

Always There, Ready to Care.

Enhancing Lives, Strengthening Communities

Overall Annual Meeting Evaluation

@nhhospitals @healthynh #alwaysthereready tocare

ACHE Session Evaluation

This program has been developed and is presented locally by the New Hampshire Hospital Association. The American College of Healthcare Executives has awarded 1.5 ACHE In Person Education Credits to this program.
