

Tight budgets? We've got you covered.

Financial Solutions Rural Health

At Spacelabs Healthcare, we understand the unique challenges of rural health. That's why we're changing the way we are doing business by offering new flexible financial programs specifically designed to support rural health.

Equity Subscription Program

Financial flexibility with predictable costs.

This unique program is crafted to help keep you within budget and avoid technology obsolescence when operating or capital budgets are tight. Now you can bundle costs into a single price per device.

Program Benefits

- No upfront costs, no capital, no buyout
- Month-to-month fixed payments
- Full integration into your EMR
- Cancellable any time*
- Fully capped to control costs
- Add or refresh products at any time
- Off balance sheet program; title transfers once paid in full

Fixed Capital Purchase Program

Easy, transparent, comprehensive.

All the benefits and predictability of the Equity Subscription in a capital purchase model. The Fixed Capital Purchase Program offers a flat price per monitored bed for a turnkey solution.

Program Benefits

- Fully packaged solution to fit the needs of all departments and any acuity levels
- All new bedside monitors, telemetry devices, central stations and infrastructure
- Full integration into your EMR
- Parts and labor warranty with software support included
